

Sprint 2 Plan

Heading:

Product name: PhotoOp

Team name: Team Cidl

Sprint completion date: 11/3/19

Revision number: 1

Revision date: 10/21/19

Goal:

- High level goal #1: User is able to see recommended picture-worthy places closest to their desired location
- High level goal #3: User is able to login to personal account to see stored favorite photo locations

Task listing, organized by user story:

- User story 1 (5 points):
 - As a user, I need to be able to login so I can see my personalized recommendations.
 - Task 1: Design a login screen
 - 2 hours
 - Task 2: Create front-end components for login and sign up screens
 - 4 hours
 - Task 3: Set up Firebase authentication module in order to be able to authenticate user's sign up and login
 - 5 hours
 - Total: 11 hours
- User story 2 (9 points):
 - As a user, I need to be able to see my recommended locations in order of closest to farthest from my current location and be able to see the distance of each location so I can decide which place I would like to go to.
 - Task 1: Use Google Maps SDK to find the current location of user
 - 3 hours
 - Task 2: Use Google Maps SDK to display recommended locations in a map view
 - 6 hours
 - Total: 9 hours
- Total
