

User Guide - PhotoOp

- 1) When you first open the app, you will be taken to the **Sign Up** screen. **If you are completely new to the app**, create an account by entering your preferred email address and password that you are going to use to log in the next time you open the app.

A screenshot of the 'Sign Up' screen in the PhotoOp app. The screen has a solid pink background. At the top, the status bar shows the time as 2:03, signal strength, Wi-Fi, and battery. Below the status bar is a white header with a left-pointing arrow and the word 'Back'. In the center, there is a white location pin icon with a circle inside. Below the icon, the text 'Sign Up' is displayed. Underneath, there are two input fields: the first contains the email address 'example123@email.com', and the second contains a password represented by eight dots. Below the password field is a white button with the text 'Sign Up'. At the bottom, the text 'Already have an account?' is followed by a white button with the text 'Login'.

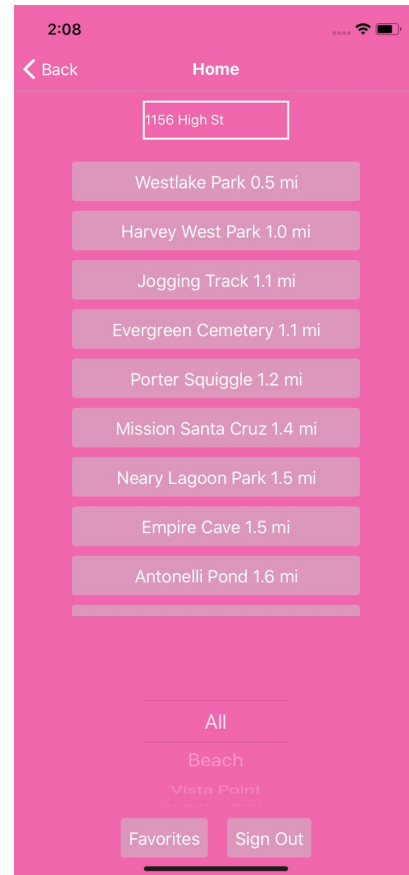

- 1a) If you are not a new user, navigate to the **Login** button at the bottom of the screen and enter your account info.

A screenshot of the 'Login' screen in the PhotoOp app. The screen has a solid pink background. At the top, the status bar shows the time as 2:05, signal strength, Wi-Fi, and battery. Below the status bar is a white header with a left-pointing arrow and the word 'Back'. In the center, there is a white location pin icon with a circle inside. Below the icon, the text 'Login' is displayed. Underneath, there are two input fields: the first contains the email address 'photo-op-user@gmail.com', and the second contains a password represented by eight dots. Below the password field is a white button with the text 'Login'. At the bottom, the text 'Need an account?' is followed by a white button with the text 'Sign Up'.

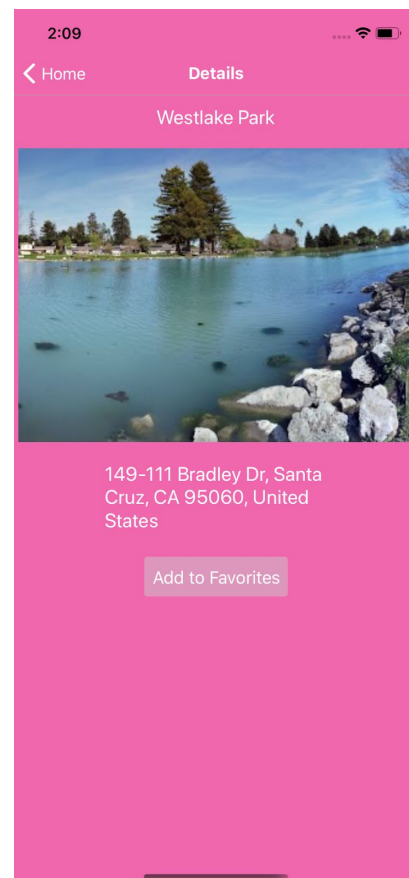

2) Once you have entered your info, click the Sign Up button or Login button and you'll be taken to the **Home** screen!

a) From here, you can enter your current address or any address you would like to use in the **box at the top of the screen**. Once you do so, you will see a list of points of interest (POIs) in Santa Cruz sorted in terms of distance from the address you entered. The default address is set to the UCSC address.

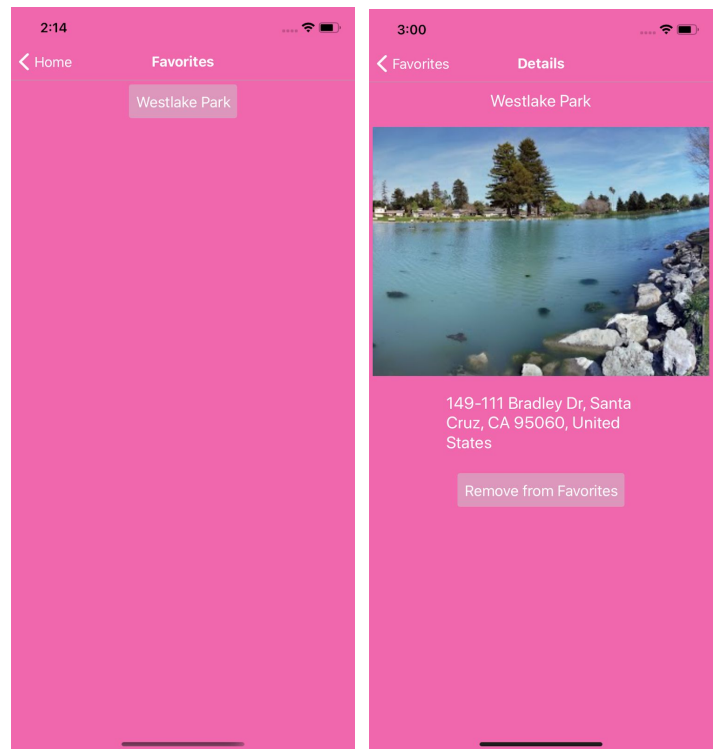

3) If you click on a location, you'll be taken to the **Details** screen.

a) Here, you can view a photo and the address of the POI and add it to your **Favorites** if you want to come back to it later (look at the next step to find where to access your Favorites).

- 4) To access your favorites, go back to the Home screen and click on the **Favorites** button to access your list of Favorites. (Your Favorites are attached to your account and will be there even after you log out.)
- a) From here, if you click on one of your Favorite locations, you'll be taken back to the Details page for that location
 - b) If you want to remove a location from your Favorites, click on the **Remove From Favorites** button at the bottom of the Details page.

- 5) Another feature you can use to narrow down options is the **Picker** at the bottom of the screen that allows you to **filter the locations by their category**. By default, you are on the "View All" option.
- a) E.g. Here we are filtering out the locations so that we only see the Vista Points
