Sprint 2 Report

Heading:
Product Name: PhotoOp
Team Name: CIDL
Date: 11/3/19

Actions to stop doing:
- Don't wait until the last minute again. Due to members being out of town at various points, we weren't able to properly get the application set up on everyone's laptops, leading to issues with testing the application. This eventually led to many uncompleted tasks.
- If you commit to a task and you realize you won't be able to finish it in the necessary time, communicate effectively with the rest of the team so that we can compensate for it and figure out what to do earlier instead of at the last minute.

Actions to start doing:
- Start tasks as soon as the sprint begins so everything is not left to the last minute.
- Ask more questions about tasks you're stuck on and do so earlier so that we can work through them earlier and move on to other tasks faster.

Actions to keep doing:
- Set up group work sessions so we can work through possible issues together.
- Good communication during every scrum meeting so we know about everyone's progress at all times.

Work completed/not completed:
- Completed
  - User story 1: As a user, I need to be able to login so I can see my personalized recommendations.
- Not completed
  - User story 2: As a user, I need to be able to see my recommended locations in order of closest to farthest from my current location and be able to see the distance of each location so I can decide which place I would like to go to.

Work completion rate:
- Total number of user stories
  - 1
- Total number of estimated ideal work hours
  - 20
- Total number of days
  - 14
- User stories/day
  - 0.07

- Work hours/day
  - 1.4
- Average user stories/day
  - 0.03
- Average ideal work hours/day
  - 1.07
- Burn up chart
