Sprint 4 Plan

Heading:
Product name: PhotoOp
Team name: Team CIDL
Sprint completion date: 11/24/19
Revision number: 1
Revision date: 11/18/19

Goal:
- High level goal #2: Be able to recommend users picture-worthy places closest to their current location

Task listing, organized by user story:
- User story 1: As a user I need to be able to see my current location so that I can track where I am.
    - Task 1: Link Apple Maps to app, meaning fix linking error (3 hours)
    - Task 2: Use Apple Maps to recommend locations based on our chosen locations (4 hours)
    - Total for user story 2: 7 hours
    - **Spikes**: Learning how to fix our errors integrating Apple Maps
- User story 2: As a user, I need to be able to see relevant recommendations so I can find which ones I like and want to go to.
    - Task 1: Create front-end component for the page that contains description and picture of photo location (3 hours)
    - Task 2: Display recommended locations in list view based current location, meaning locations are linked to maps (4 hours)
    - Total for user story 3: 7 hours
    - **Spikes**: Learning how to manipulate Google Maps view
- Story 3: As a user, I would like to enter a location to get recommendations for other than my current location
    - Task 1: Create front-end component to allow user to enter location (2 hours)
    - Task 2: Link input text to maps API (3 hours)
    - Total for user story 2: 5 hours
- Story 4: As a user, I would like to be able to login to my account
    - Task 1: Create front-end component for login screen (2 hours)
    - Task 2: Configure firebase authentication module (3 hours)
    - Total for user story 4: 5 hours

Team roles:
1. Iva: Developer
2. Chhavi: Developer, Scrum Master
3. Disha: Developer
4. Leah: Product Owner, Developer

Initial task assignment:

| Iva	User story 2, task 1
Chhavi	User story 2, task 2
Leah	User story 1, task 2
Disha	User story 1, task 1
